

Prolotex™ Far Infrared Negative Ion SCARLET SHIELD SHIRT for Men

Feel the **POSITIVE** healing benefits from the **NEGATIVE ION** shoulder panel

The Positive Effects of Negative Ions

Negative Ions play a major role in helping to detoxify and enhance the body's overall well-being.

Far Infrared Ion Fabric used in Prolotex garments provides a convenient, complementary and affordable method to detoxify, protect you from harmful EMF's and improve your overall health.

When Prolotex Infrared Ion Fabric is used on a regular basis, it can help to:

- Reduce Stress and Fatigue
- Improve Immune System
- Improve Blood Circulation
- Strengthen Cardiovascular System
- Improve Sleep Quality
- Ease Joint-Related Pains & Body Aches
- Relieve Allergies
- Relieve Respiratory Related Illnesses
- Regulate hormonal imbalances
- Increase Concentration
- Increase Body Energy
- Inspire Productivity

Shirt Fabric Content:

Fabric: Polypropylene fibers that are fused with micro-particles of lead-free bio-ceramics.
95% Polypropylene, 5% Ceramic

NEW Prolotex™ Infrared Ion Fabric is the perfect marriage combining Far Infrared Bio Ceramics and effective Negative Ions to provide a more elevated mood, increased immunity and metabolism to help accelerate healing and alleviate pain.

The original Prolotex™ Far Infrared Bio Ceramic Fabric has proven to help induce microcirculation, reduce numbness, tingling, swelling, and the overall reduction of pain.

But only Prolotex™ Brand New "Infrared Ion" Fabric, the ultimate breakthrough in complementary therapy, provides the same incredible Far Infrared Therapeutic benefits with the *added* potency and effectiveness of Negative Ions.

What are Ions?

"Ions are charged particles in the air that are formed in nature when enough energy acts upon a molecule such as carbon dioxide, oxygen, water, or nitrogen to eject an electron from the molecule leaving a positively charged Ion.

The displaced electron attaches itself to a nearby molecule, which then becomes a "negatively" charged Ion.

From "Whole Self", Spring 1991, an article entitled "Ions and Consciousness."

Negative Ions are readily emitted from the TOURMALINE mineral, one of the natural substances used in Prolotex's Bio-Ceramic formula

Tourmaline - for negative ions and far infrared (FIR) rays.

How Does Scarlet Shield Material Work?

A special formula of natural nonmetal bio-ceramics made from tourmaline semi-precious gemstones is infused inside the actual fibers of the material during the manufacturing process. Tourmaline offers unique healing properties and is a safe natural therapy. If you have any doubts then search; "tourmaline healing properties" online. See for yourself.
